

Name _____

Date _____ Per. _____

Levels of Organization Model

Objective:

Students will be able to identify, compare and contrast *Levels of Organization* including cells, tissues, organs, organ systems, and organism; students will create a model showing the sequence of levels.

Model must include:

1. All 5 levels (cells, tissues, organs, organ systems, and organism)
2. All 5 levels should be accurately represented showing the connections from one level to the next and should be displayed in the proper sequence
3. All 5 levels should be accurately labeled
4. All 5 levels should be effectively colored with consistency from one level to the next

Levels of Organization Models

	All 5 Levels Included 5 points	Model Accurately Represents the Level 10 points	Levels Accurately Labeled 5 points	Diagrams Effectively Colored 5 points
cell				
tissue				
organ				
organ system				
organism				
TOTAL POINTS				

OVERALL SCORE _____ / 25
